# OZMOSIS REQUEST THREAD / Ozmosis Anfragen [1. Beitrag beachten!]

**Beitrag von „malaval\_ren“ vom 27. Oktober 2019, 16:12**

Hello,

Hersteller: Intel  
Modèle: DP67BG

Chipsatz: P67 (Sandy Bridge)

Bios Version: 2209 (17/07/2012)  
BiosLink: [BGP6710J.86A.2209](#)

CPU: Intel i7-2600k

GPU: Asus GeForce Dual RTX 2080 Ti

OS : Sierra (goal is to update to High Sierra)

Thank you very much 😊

note:

I have a black screen for Clover v2.4k r4972 (Grub2 2.02 too). Just displayed on bottom right of my screen "0\_"

Perhaps linked with legacy BIOS Video driver...

Best regards,
