

# OpenCore Sammelthread (Hilfe und Diskussion)

Beitrag von „Noir0SX“ vom 2. November 2019, 12:38

DU hast da zu viel gelöscht, beim erstellen der Config

The image shows a screenshot of the OpenCore configuration menu. The menu is displayed in a dark theme with white text. The 'Input' section is highlighted with a red arrow. The menu items are as follows:

▼ UEFI	Dictionary	(5 items)
ConnectDrivers	Boolean	YES
▶ Drivers	Array	(4 items)
▶ Input	Dictionary	(8 items)
▶ Protocols	Dictionary	(11 items)
▶ Quirks	Dictionary	(11 items)
