Hab da mal eine Frage was ist denn m2p Benutzung?

Danke für die Antwort

Die beiden M.2 Ports auf dem Mainboard sind so benannt. Der eine heißt M2M, der andere M2P.

Installation Notices for the M.2 and SATA Connectors:

Due to the limited number of lanes provided by the Chipset, the availability of the SATA connectors may be affected by the type of device installed in the M.2 sockets. The M2M connector shares bandwidth with the SATA3 4, 5 connectors. The M2P connector shares bandwidth with the SATA3 0, 1 connectors. Refer to the following tables for details.
