Kernel Panic beim shutdown

Beitrag von „BastelKlug“ vom 18. Januar 2020, 08:22

Hallo, erstmal sorry für das "ReThema", ich glaube ich war an der falschen Stelle:

Nach meiner Installation auf meinem Laptop mit einer fertigen EFI Konfig (aus dem Forum hier) für den Intel HD 520 musste ich feststellen, dass erstens immer ein Fehlerbericht beim Start kommt (Text ist eingebledet und Screen auch) und zweitens, dass nur ein USB Port funktioniert (USB 3.0)

EFI Ordner und Screenshot sind im Anhang untern 😊

Danke im Vorraus 😊

Code
