Ozmosis mit macOS Catalina 10.15 - OZ167X-XMAX (extended)

Beitrag von „kuckkuck“ vom 11. Februar 2020, 12:25

Please use Verbose Mode and post the Error that is printed so that I can see if it is related to Kext Injection. I haven't taken a look at the recent 10.15.3 Kernel to be able to say if the KextInjection needs to be updated. If it is indeed a problem with KextInjection I will need you to upload the 10.15.3 Kernel so that I can take a look at it and figure out a new KernelExtension-Injection Patch.
