

[SUCCESS] Gigabyte Z390 M Gaming + RX 580 Nitro+ [EFI im Anhang]

Beitrag von „hsathler“ vom 11. Februar 2020, 14:47

Hello again, guys!

Does anybody updated to 10.15.3 and have problems with USB? After the update, my USB 3 ports can't see any USB 3 devices.

I'm using the EFI from the first post, just with SATA Hot Plug patch (that I posted sometime ago) and with another clover theme.
