Ozmosis mit macOS Catalina 10.15 - OZ167X-XMAX (extended)

Beitrag von „nrchandar0100“ vom 18. Februar 2020, 12:05

hi

Thank you very much for your response. Really i did not know how to boot the Ozmosis in to text mode and that was the reason i could not respond, please help me. i am not a technical man. i will try to catch up you in opencore thread and if possible help me.

Regards
