·Hi, thank you for your answer. Can you update to Mac OS 0.15.4? If there is an updated kernel patch, I hope to share it, thank you! Sorry to add, there's no problem updating Mac OS 0.15.4, but it can't get into the desktop. It's stuck on the white desktop. I think it's a kernel patch problem, because 10.15.3 is normal
