

Erledigt

Manjaro Deepin Linux

Beitrag von „Urgeist“ vom 26. Februar 2020, 18:13

Ende März gibt es die neue offizielle Debian basierte v20 Version! *freu* 😊

Aus E-Mail:

"Could you help translate the strings in deepin?"

Hello guys, **deepin V20 will be released in late March.**

Before that, full localization in your language is really appreciated.

Could you please finish the translations before the release?

Thanks for your contribution in advance.

Best regards,

Cindy"
