

X299 Tutorial - ASUS WS X299 SAGE/10G (Hilfe und Diskussionen)

Beitrag von „ash100“ vom 26. Februar 2020, 23:34

Hey again 😊

I have everything working except thunderbolt..

I've attached a screenshot from ioregistry explorer..

What should I set as the correct value ?

When I try to open the SSDT-TBOLT3.aml in MaciASL I get an error and can't open it..

Thanks so much for the help so far..
