

# X299 Tutorial - ASUS WS X299 SAGE/10G (Hilfe und Diskussionen)

Beitrag von „ash100“ vom 29. Februar 2020, 17:07

I'm almost there now...

Thunderbolt is working, sort of..

It doesn't automatically connect when the computer boots..But if I take the cable out and plug it in it connects..

I have attached my EFI folder...

Really hope someone can't get me across the finish line, it's so close now 😊

Cheers

Andy
