

Erledigt

Natives Thunderbolt3 an jedem Rechner

Beitrag von „juantrix“ vom 5. März 2020, 16:12

I have 2 THB3 AIC with patched firmware NVM23 (Pin3-5 Jumper) No USB2 No power required.

Installed in Slot 3 (PClex4) (PCIO-RP21_PXSX)

Installed in Slot 4 (PClex16) (PC01-BR1A_PEGP)

Hot/Cold Plug work correctly (eGPU_Radeon VII /extract icon & Sonnet 10GBe /IP Re-Asing)

Work dual port in both

Patched NVM23 & proper **ThunderboltConfig**
