Gibt das Bild. Was sagt das aus?

The screenshot shows the AmorphousDiskMark 2.5.3 application window. The interface includes a title bar, a menu bar, and a main display area. The main display area shows performance results for a Sabrent drive. The results are organized into a table with columns for Read [MB/s] and Write [MB/s]. The data is as follows:

	Read [MB/s]	Write [MB/s]
SEQ128K QD32	3441.23	2538.88
RND4K QD32	1067.67	13.27
SEQ1M QD1	1968.49	1931.23
RND4K QD1	60.30	13.03

The drive name "Sabrent" is visible at the bottom of the results table.
