## Ozmosis mit macOS Catalina 10.15 - OZ167X-XMAX (extended)

Beitrag von „supergg12“ vom 17. März 2020, 19:10

Hi,

Since I installed catalina, when I woke up from sleep, the PC is running but the screen remains black. Can you tell me if you have an idea of the cause of this situation?

Thank you in advance.
