[Need Help] H87 Clover "End RundomSeed" +++ and reboot

Beitrag von „June“ vom 20. März 2020, 18:25

Yes, it is. I used to create some reports use MMTTool, and compare theirs volume space, I found this may not be inaccurate.

I have used MMTTool to create reports of different modified versions of this BIOS, and I found that the volume size shown in the report may not be accurate
