## OZMOSIS REQUEST THREAD / Ozmosis Anfragen [1. Beitrag beachten!]

Beitrag von „firefly\_can\_fly“ vom 28. April 2020, 19:31

Hi guys, once again i would ask you for help.

I made new OZ rom with new KernnextPatcher.plist, but i didn't save it properly and flashed old ROM.

After update, it's not working with obvious reasons and my attempts to add KernnextPatcher.plist to EFI partition didn't give me any relief.

So, i would like to ask you to flash new KernnextPatcher.plist to my existing ROM and save me from installing VM with macos.

Thank you!
