# **In Arbeit** Beelink U55 "Hack Mini" - inkl. EFI

## Beitrag von „cocoz" vom 14. Mai 2020, 21:25

sorry I didn't want to make you angry anyway I know you updated it on May 12, in fact I tried it the next day and I made the replacement that you described to me here but as I told you it doesn't start for that kernel memory panic

sorry for the text in code I'm learning to use this chat
