

# X299 Tutorial - ASUS WS X299 SAGE/10G (Hilfe und Diskussionen)

Beitrag von „Extreme“ vom 15. Mai 2020, 14:33

I'm so sorry. Hi saw the video again and obviously i was wrong and now i deleted AptioMemoryFix.

Download now MaciASL v1.5.6: is the correct version?

I open SSDT-TBOLT3.aml on my patched folder and have this situation:

```
***
** Intel ACPI Component Architecture
** AML/ASL+ Disassembler version 1010000 (64-bit version)
** Copyright (c) 2000 - 2019 Intel Corporation
**
