

# Ozmosis-BIOS Gigabyte GA-Z77X-UD3H Version 1.0 , F18-BIOS , Catalina

Beitrag von „griven“ vom 17. Mai 2020, 09:52

Here you go 😊

Catalina Ready (in theory) Ozmosis flavored F18 Version of your desired rom:  
[z77xud3h\\_OZ.f18.zip](#) keep in mind that you may place your Network driver and Lilu +  
WhateverGreen onto your Efi Partition if you not already done so...
