

MSR Unlock/Cascade Lake Refresh Firmware Fix

Beitrag von „DSM2“ vom 19. Juli 2020, 08:38

Sleep works without issues here!

Just check your acpi... I'm actually off the whole Hackintosh story, but this should be more than enough, to give you an idea where to look at...

If you have any further questions, just check the appropriate help thread, I'm sure someone will take care of it for you.
