El Capitan auf dem T61? Ja aber sicher doch!

Beitrag von „grt“ vom 23. Juli 2020, 11:45

please don't quote full postings.. especially, if the quoted contents are short before your new post. if you want to address someone directly, you can write @ followed by the username.

can you post a picture from the verbose boot of your thinkpad (attach it over this platform, no external filehoster please), and describe more precise, what happens, when you try to boot?
