

# Clover: Umstieg auf OcQuirks & OpenRuntime gelingt nicht

Beitrag von „5T33Z0“ vom 23. Juli 2020, 23:18

Anscheinend fehlt dir Openruntime.efi im Drivers ordner:

"The OcQuirks EFI driver **has a dependency on OpenRuntime.efi, and they must be installed together in the CLOVER EFI drivers directory.** OpenRuntime.efi can be found in the release zip and is built along with OcQuirks."
