

macOS 11 BigSur Dev-Beta Clover Patch

Beitrag von „serdeliuk“ vom 25. Juli 2020, 22:05

[Zitat von kuckkuck](#)

Use:

- Replace CLOVERX64.efi (r5119 Mod) on the EFI with the appendix

Hi [kuckkuck](#) thanks for this patched version of Clover 5119, can you please let me know what did you patched exactly and if you have the source code available somewhere publicly accessible with your modifications? I want to apply your patches to the latest Clover version.

Please excuse me that i write in english but unfortunately i don't know German
