

macOS 11 BigSur Dev-Beta Clover Patch

Beitrag von „jackacc“ vom 5. August 2020, 11:20

The BigSurOTAswufix allows to download a full installer from a previous beta 2 (probably because apple labelled it 10.16) but apparently not from beta 3 (maybe with some modification of SystemVersion could work), so here is a beta 4 link (12,3 GB):
<http://swcdn.apple.com/content/download...m7ounuabziajktg8nhoptis/InstallAssistant.pkg>
