macOS 11 BigSur Dev-Beta Clover Patch

Beitrag von „kuckkuck" vom 7. August 2020, 13:21

mun1983 Please don't provide untested and corrupt files. The files you've uploaded do not and can not work, KernextPatcher is not being used right, the ROM is inconsistent, contains invalid signatures and untested software which is not DXE compatible. Please delete.

Furthermore this is not an Ozmosis Thread...
