

VoodooI2C

Beitrag von „Noir0SX“ vom 8. August 2020, 11:25

2.4.4

Since the last release there have been 7 commit(s). The descriptions for the first (at most) 10 of these are as follows

- Bump version to 2.4.4 and update VoodooI2CSynaptics
- Notify multitouch engine when property changed ([#344](#))
- Update VoodooI2CPCIController for newer Comet Lake PCI IDs ([#341](#))
- Fixes VoodooInput compatibility ([#333](#))
- Add Comet Lake H PCI IDs ([#335](#))
- Minor fixes of power state switching in setPowerState() ([#331](#))
- Update README.md
