

Ergänzendes Catalina Update 10.15.6 ist raus.

Beitrag von „5T33Z0“ vom 13. August 2020, 07:34

Zitat

macOS Catalina 10.15.6 supplemental update includes bug fixes for your Mac

- Fixes a stability issue that could occur when running virtualization apps
- Resolves an issue where an iMac (Retina 5K, 27-inch, 2020) may appear washed out after waking from sleep
