

Matebook 13 & 14 OpenCore 99%works EFI

Beitrag von „ske1996“ vom 14. August 2020, 09:33

Matebook 13 & 14 OpenCore 99%works EFI

You can use this efi to boot both catalina and bigsur now.

it is steadily and worked well.

Download and guide to install & unlock cfg

In my Github repo:

<https://github.com/ske1996/mat.../blob/master/readme-en.md>

Works fine

1.bluetooth

2.wifi

4.hdmi audio of hdmi,too

5.TrackPad

6.Could get perfect powermanagement after disable cfg lock

7.about FB part:igpu(uhd620) works well

8.cpu boost cpufriend set in 1800mhz maximum

9.usb by using ssdt

10.FN key(brightness and sound)

11.audio jack

Doesnt work

1.Camera UVC Camera VendorID_1480 ProductID_975 is available

2.mx250/150/350 hopeless
