Asus Zenbook UX433fa Catalina diverse Probleme

Beitrag von „ishayye“ vom 30. August 2020, 18:04

[Michael1984](#) I'll try your EFI soon!

I didn't really try to get the camera to work (and I don't think it's even possible, due to it being a 3D camera...)

How's your battery life? Mine are ranging between ok (~5-6 hours) and really bad (1-2 hours).
