[Sammelthread] MacOS BigSur 11.0 DEV-Beta Erfahrungen

Beitrag von „Macko" vom 7. September 2020, 16:18

Hello,

1. please know where it is set in OC so that the text is displayed at boot. I only see the logo and if the boot stops I won't see an error.

2. how to make a printscreen when booting in OC and where is it stored? F10,11,12 does not work.

Thanks for help.
