Issue solved well done.

What was your problem?

[xerano](#) The problem was that I could not get any audio on my laptop but turns out I had the wrong alcid. after I switched to opencore, I tried installing the big sur beta, but now i cant boot into it I get the following error:

```
Kext org.rehabman.driver.AppleSmartBatteryManager did not start
```

```
Kext org.rehabman.driver.AppleSmartBatteryManager start failed
```

```
Failed to load kext org.rehabman.driver.AppleSmartBatteryManager did not start
```

```
MacOS 10.15
```

```
iographics flag 0x3 (0x51)
```

Then after some time it goes into **memory panic stackshot succeeded**
