

macOS 11 BigSur Dev-Beta Clover Patch

Beitrag von „ITzTravellnTime“ vom 5. Oktober 2020, 17:19

Hi, are there any updated kernel patches for the latest BETA? I'd like to try it but i am still figuring out my upgrade to clover r5123 and r5122 won't let me boot since kext-injection isn't working with big sur (because i need the patches)
