

macOS 11 BigSur Dev-Beta Clover Patch

Beitrag von „ITzTravellnTime“ vom 5. Oktober 2020, 17:46

[Zitat von theCurseOfHackintosh](#)

For Beta 9, there are no patches, because PrelinkedKernel doesnt exist anymore

I guess i have to upgrade to r5123 then, is there some reference about how to setup the new quircks options?, since those aren't there in the open core quircks
