

HP EliteBook 840 G1 & OpenCore Catalina/Big Sur

Beitrag von „Zayed4502“ vom 6. Oktober 2020, 01:33

I guess ill just wait for a proper release of Big Sur and a dsl...

EDIT: I found a workaround for those who need one. I also happen to have an iPhone handy. I installed an app called microphone live, its by Von Druno, and opened Audio Midi setup on mac, then I enables the iphone as audio source and switched input from Line In to iPhone in System Prefrences. The sound quality is amazing as well.
