

HP EliteBook 840 G1 & OpenCore Catalina/Big Sur

Beitrag von „mhk“ vom 25. Oktober 2020, 21:14

jboeren I hope that final release will work like beta 10 or better because for me Big Sur work better than Catalina 10.15.7. Is very fast end responsive and I've got over 10 to 40 points better results in Novabench. My OC configuration is about 80% done. I use hack over 2 years and Mac is my daily OS and it will be good to do 99% OC configuration. But apple know how too mess up and than fun start over and over.
