

[Sammelthread] MacOS BigSur 11.0 DEV-Beta Erfahrungen

Beitrag von „Jupp21“ vom 27. Oktober 2020, 10:19

[Zitat von Macko](#)

Why bother with Clover? I didn't want it at the beginning of Big Sur OpenCore, but now I wouldn't want Clover... 😊

First Because of Clover being better Opencore !

Second To show that is is possible to use clover, and use clover and Opencore together on one PC.

Greetings
