

Lenovo Thinkpad T530

Beitrag von „antukst“ vom 30. Oktober 2020, 11:47

Dear @[5T33Z0](#)

No i don't have any credit and my credit don't want any more all the credit only yours i just do some research just for myself.

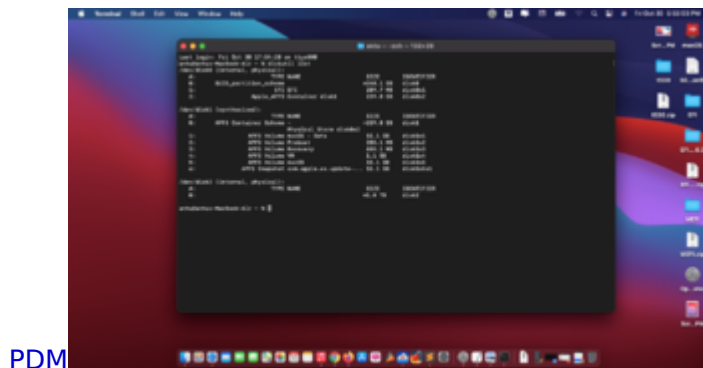

Dear @[5T33Z0](#)

I've shown you what I've changed. See if it matches you. I've never lied here

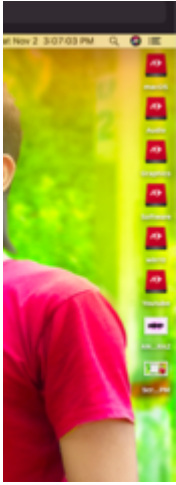

I have said before

The two settings (integrated and discrete graphics) I saw didn't work a little bit

But working on my laptop now was not doing before I just said that.

Same HDD MacOS catalina still show before big sur update

I have the same problem with the tendency to talk about feeling, how can it be solved on Big Sur

please reply @[5T33Z0](#) @[trdt](#)
