

[Sammelthread] MacOS BigSur 11.0 DEV-Beta Erfahrungen

Beitrag von „cnoers“ vom 5. November 2020, 23:37

RC1 installation lief ohne Auffälligkeiten durch. Geekbench 5 Metall noch mal 600 Punkte im Schnitt mehr. Next.

The image shows a Geekbench 5 score for an iMac (27-inch Retina Early 2019). The score is 43635, with a Metal Score of 43635. Below the score, it says "Geekbench 5.2.5 Tryout for macOS x86 (64-bit)". Under "Result Information", it shows "User: cnoers", "Upload Date: November 5th 2020, 11:31pm", and "Views: 2". Under "System Information", it shows "System Information" and "Operating System: macOS 11.0.1 (Build 20B5022a)".
