

HP EliteBook 840 G1 & OpenCore Catalina/Big Sur

Beitrag von „Zayed4502“ vom 18. November 2020, 20:57

I dont have a definite time but it takes much longer than expected, somewhere around 3 mins now, it was taking about a minute to bootup earlier but thats because of all the delays put in, but I have a feeling its probably one of the kexts messing me up. And thanks for the tip on Hackintool, Ill look into it.
