

Wifi beim Macbook Pro mid 2012 unter Big Sur Beta wiederbeleben.

Beitrag von „Erdenwind Inc.“ vom 3. Dezember 2020, 08:21

By the way, if you have a Mac Pro, [Big Mac](#) by StarPlayrX is another patcher worth considering. For 2008 Mac Pros (MacPro3,1) in particular, Big Mac is clearly a better option than this patcher (at least for now).
