1. If you have Patched SSDT / DSDT, than not.
2. Yes
3. You can also use OZ-XMAX 2018, without AptioFix: [https://www.hackintosh-forum.d...nt/75622-ozmosis-ffs-zip/](https://www.hackintosh-forum.de/nt/75622-ozmosis-ffs-zip/)
4. I used it on B75, I never changed Anything in Darboot.plist, just used it...
