

# csr-active-config Eintrag + Big Sur Installation Frage

Beitrag von „kexterhack“ vom 3. Januar 2021, 00:04

[griven](#)

Er findet das bootstrap protokoll nun nicht mehr

```
BS: Starting OpenCore...
BS: Booter path - EFI\OC\Bootstrap\Bootstrap.efi
OCFS: Trying to locate filesystem on 97C09E18 9A627998
OCFS: Filesystem DP is EFI\OC\Bootstrap\Bootstrap.efi
BS: Trying to start loaded OpenCore image...
BS: Failed to locate bootstrap protocol - Not Found
BS: Trying to load OpenCore image...
BS: Read OpenCore image of 487360 bytes
BS: Loaded OpenCore image at 99488498 handle
OC: Failed to load configuration!
```
