

Z87X-UD5H 10.15.7 Nicht installiert

Beitrag von „Quorthon“ vom 7. Januar 2021, 16:20

Yes, ROM

[Z87X-UD5H 10.15.7 Nicht installiert](#)

Good. I'll try Win + V

I remember I prescribed in OpenCore -v

Do I understand correctly that I have to boot through F12?

Before that, I ran the installation via Ozmosis.
