

Z87X-UD5H 10.15.7 Nicht installiert

Beitrag von „Quorthon“ vom 7. Januar 2021, 19:03

It doesn't work with opencore 😞

I collected following this video
https://www.youtube.com/watch?v=2mllk_6ZXNM&list=LL&index=2 - DOES NOT WORK

I tried with these settings from tony...86 - DOES NOT WORK, although the checker showed all green points <https://opencore.slowgeek.com/>

Only Clover works for me 😊

I'll try to install Clover again. The settings have been changed since the last unsuccessful BIOS attempt. And BIOS is updated. Perhaps it will work.
