

Z87X-UD5H 10.15.7 Nicht installiert

Beitrag von „Quorthon“ vom 7. Januar 2021, 19:28

In the my files archive, I found an old zip archive. It was created by the person who assembled my computer and flashed Ozmosis. Perhaps Z87XUD5H.10C_ORIG_FOR_MAC is what I need? You can see?
