

[Sammelthread] MacOS BigSur 11.0 DEV-Beta Erfahrungen

Beitrag von „Macko“ vom 8. Januar 2021, 18:47

Hi, I have an official installation of 11.1 (20C69).

Is there a Developer Beta Access Utility on version 11.2? Is there a direct link to version 11.2?

I can't download from version 11.1 through the update.
