hi luluuuu18,

It's not me who do a great job BRAVO to you my friend you do a perfect job more than me.

I know that from the begining...

It's a very very good news...

Thank you to you too and all friends who has the same pc.

Thank you...

For my friend vansmocs,

I have no idea my friend because my pc has not nvideo as a graphics.

For the intel wifi in our pc is unsupported by macos from mojave still big sur so use an usb wifi tp link like i do...

For vansmocs these steps that i did good luck if it works tell me ...see the pic.
