

Erledigt Lion hängt sich immer auf

Beitrag von „hordl“ vom 10. Oktober 2011, 19:55

Bin in dieses Menü gegangen doch dort ist nur itunesHelper aufgelistet. (habe ich abgehackt)

die netgear software muss ich manuell starten wenn ich mit dem wg111v3 stick ins internet will.

habe diese geschlossen und stick nicht angesteckt und teste es mal 😊

edit1:

hatte wieder 2 freeze... 😞

1. nach 20 min wie er das backup gestartet hat

2. gleich nach dem neustart

edit2:
