

# A problem in Dell G5 5500

**Beitrag von „gamal“ vom 22. Februar 2021, 16:46**

A problem with the Hacking boot

Try setup catalina or bog sur

Through clover or opencore, but unfortunately failed in any case

In clover bootloader I am showing a message like the attached picture

In the case of the opnecore bot, I get a message not suport platform

The device specifications are

Processor: 10th Generation Intel® Core™ i7 -10750H (12MB Cache, up to 5.0 GHz, 6 cores)

RAM: 16GB

Hard Disk: 512 SSD

Graphics Card: NVIDIA® GeForce® GTX 1660 Ti 6GB GDDR6

Please help
