

RX 6xxx(XT) Thread, Lieferbarkeit, Kompatibilität, Leistung

Beitrag von „Technotron“ vom 5. April 2021, 20:44

I think what makes the experience so "magical" (in less technical terms) is the tight integration of software and hardware specifically tailored (and controlled!) by Apple. Of course, that is easier said than done, but if there is a company out there with the resources to pull it off... well, you probably know their name! As a simple end user I will simply proceed to carry on and enjoy Apple's 'Magic' 🍏
